

## Anti-PAK2 antibody (1-380) (STJ11100066)

STJ11100066

### GENERAL INFORMATION

|                          |                    |
|--------------------------|--------------------|
| <b>Product Type</b>      | Primary antibodies |
| <b>Short Description</b> |                    |
| <b>Applications</b>      | WB/IF/ICC/ELISA    |
| <b>Host/Source</b>       | Rabbit             |
| <b>Reactivity</b>        | Human/Mouse/Rat    |

### PRODUCT PROPERTIES

|                            |                                                                                                                                                          |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Clonality</b>           | Polyclonal                                                                                                                                               |
| <b>Clone ID</b>            |                                                                                                                                                          |
| <b>Concentration</b>       | Lot specific                                                                                                                                             |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                             |
| <b>Purification</b>        | Affinity purification                                                                                                                                    |
| <b>Dilution</b>            | WB:1:500-1:2000                                                                                                                                          |
| <b>Range</b>               | IF/ICC:1:50-1:200<br>ELISA:Recommended starting concentration is 1 Mu g/mL. Please optimize the concentration based on your specific assay requirements. |
| <b>Formulation</b>         | PBS with 0.09% Sodium Azide, 50% Glycerol, pH 7.3.                                                                                                       |
| <b>Isotype</b>             | IgG                                                                                                                                                      |
| <b>Storage Instruction</b> | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles.                                                           |

### TARGET INFORMATION

|                           |                                                                                                                                                                                                                           |

Western blot analysis of lysates from wild type (WT) and PAK2 knockout (KO) HeLa cells, using [KO Validated] PAK2 Rabbit polyclonal antibody (STJ11100066) at 1:1000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) [STJS000859] at 1:10000 dilution. Lysates/proteins: 25 Mu g per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit. Exposure time: 10s.

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
