

Anti-SARS-nCoV-2 antibody [S03FC] (STJ193233) STJ193233

GENERAL INFORMATION

Product Type Primary antibodies Short Description Human monoclonal antibody anti-SARS-nCov-2 Spike is suitable for use in ELISA, ECL and Immunogold research applications. Applications ELISA/ECL/Immunogold Host/Source Human Reactivity COVID-19

PRODUCT PROPERTIES

Clonality Monoclonal Clone ID S03FC Concentration 2 mg/mL Conjugation Unconjugated Purification The antibody was affinity-purified from 293T expression by affinity-chromatography using specific immunogen. Dilution Range ELISA 1:5000-1:100000 WB 1:1000-1:10000 Formulation Liquid in PBS Isotype IgG Storage Instruction Store at-20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles.

TARGET INFORMATION

Gene ID Gene Symbol Uniprot ID Immunogen The recombinant SARS-CoV-2 (2019-nCoV) Spike Protein S Immunogen Region Specificity This antibody detects SARS-CoV-2 (2019-nCoV) Spike Protein S1 doman Immunogen Sequence
