

**Anti-ARF6 antibody (1-269) (STJ22671)**  
STJ22671

**GENERAL INFORMATION**

|                          |                    |
|--------------------------|--------------------|
| <b>Product Type</b>      | Primary antibodies |
| <b>Short Description</b> |                    |
| <b>Applications</b>      | WB/ELISA           |
| <b>Host/Source</b>       | Rabbit             |
| <b>Reactivity</b>        | Human/Rat          |

**PRODUCT PROPERTIES**

|                            |                                                                                                                                                      |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Clonality</b>           | Polyclonal                                                                                                                                           |
| <b>Clone ID</b>            |                                                                                                                                                      |
| <b>Concentration</b>       | Lot specific                                                                                                                                         |
| <b>Conjugation</b>         | Unconjugated                                                                                                                                         |
| <b>Purification</b>        | Affinity purification                                                                                                                                |
| <b>Dilution Range</b>      | WB:1:50-1:200<br>ELISA:Recommended starting concentration is 1 Mu g/mL. Please optimize the concentration based on your specific assay requirements. |
| <b>Formulation</b>         | PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.3.                                                                                                   |
| <b>Isotype</b>             | IgG                                                                                                                                                  |
| <b>Storage Instruction</b> | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles.                                                       |

**TARGET INFORMATION**

|                           |                                                                                                                   |
|---------------------------|-------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>            | 382                                                                                                               |
| <b>Gene Symbol</b>        | ARF6                                                                                                              |
| <b>Uniprot ID</b>         | ARF6_HUMAN                                                                                                        |
| <b>Immunogen</b>          |                                                                                                                   |
| <b>Immunogen Region</b>   | 1-269                                                                                                             |
| <b>Specificity</b>        | Recombinant fusion protein containing a sequence corresponding to amino acids 76-175 of human ARF6 (NP_001654.1). |
| <b>Immunogen Sequence</b> | HYTGTQGLIFVDCADRR IDEARQELHRIINDREMRDA ILIFANKQDLPDAMKPHEI QEKLGLTRIRDNRWVYQPSCT<br>ATSGDGLYEGLTWLTSNYKS          |

Western blot analysis of various lysates using ARF6 Rabbit polyclonal antibody (STJ22671) at 1:200 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (STJS000856) at 1:10000 dilution. Lysates/proteins: 25 Mu g per lane. Blocking buffer: 3% nonfat dry milk in TBST.

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
