

## Anti-SALL4 antibody (1-220) (STJ29204)

STJ29204

### GENERAL INFORMATION

|                          |                    |
|--------------------------|--------------------|
| <b>Product Type</b>      | Primary antibodies |
| <b>Short Description</b> |                    |
| <b>Applications</b>      | WB/IF/ICC/ELISA    |
| <b>Host/Source</b>       | Rabbit             |
| <b>Reactivity</b>        | Human/Mouse        |

### PRODUCT PROPERTIES

|                            |                                                                                                                                        |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Clonality</b>           | Polyclonal                                                                                                                             |
| <b>Clone ID</b>            |                                                                                                                                        |
| <b>Concentration</b>       | Lot specific                                                                                                                           |
| <b>Conjugation</b>         | Unconjugated                                                                                                                           |
| <b>Purification</b>        | Affinity purification                                                                                                                  |
| <b>Dilution</b>            | WB:1:500-1:2000                                                                                                                        |
| <b>Range</b>               | IF/CC:1:50-1:200                                                                                                                       |
|                            | ELISA:Recommended starting concentration is 1 $\mu$ g/mL. Please optimize the concentration based on your specific assay requirements. |
| <b>Formulation</b>         | PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.3.                                                                                     |
| <b>Isotype</b>             | IgG                                                                                                                                    |
| <b>Storage Instruction</b> | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles.                                         |

### TARGET INFORMATION

|                           |                                                                                                                                                                                                                                            |

Western blot analysis of extracts of various cell lines, using SALL4 Antibody (STJ29204) at 1:1000 dilution. Secondary antibody: HRP Goat Anti-rabbit IgG (H+L) at 1:10000 dilution. Lysates/proteins: 25 $\mu$ g per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Enhanced Kit. Exposure time: 90s.

Immunofluorescence analysis of mouse testis cells using SALL4 rabbit polyclonal antibody (STJ29204) at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
