

## SEPT1 Positive Control for STJ502915 peptide (STJ505122)

STJ505122

### GENERAL INFORMATION

|                          |                                                                                                                                        |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Type</b>      | Biomolecules                                                                                                                           |
| <b>Short Description</b> | SEPT1 Positive Control for STJ502915 is synthetically produced from the sequence and is suitable for use in western blot applications. |
| <b>Applications</b>      | WB                                                                                                                                     |
| <b>Host/Source</b>       |                                                                                                                                        |
| <b>Reactivity</b>        |                                                                                                                                        |

### PRODUCT PROPERTIES

|                       |                                                                                                                                                                                                                                                          |
