

## Bovine ADP (Adiponectin) Sandwich ELISA Kit (STJE0006947)

STJE0006947

### GENERAL INFORMATION

|                          |                                                                                                                                                                  |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Type</b>      | Kits                                                                                                                                                             |
| <b>Short Description</b> | This ADP Sandwich ELISA Kit is an in-vitro enzyme-linked immunosorbent assay for the measurement of samples in bovine serum, plasma or other biological fluids.. |
| <b>Applications</b>      | ELISA                                                                                                                                                            |
| <b>Reactivity</b>        | Bovine                                                                                                                                                           |

### PRODUCT PROPERTIES

|                            |                                                                                                                                                                  |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Detection</b>           | 78.1-5000pg/mL                                                                                                                                                   |
| <b>Sensitivity</b>         | 32pg/mL                                                                                                                                                          |
| <b>Detection Limit</b>     | 78.1-5000pg/mL                                                                                                                                                   |
| <b>Assay Time</b>          | 4.5 hrs                                                                                                                                                          |
| <b>Storage Instruction</b> | Store the unopened kit in the fridge at 2-8°C for up to 6 months. Once opened store individual kit contents according to components table provided with the kit. |
| <b>Note</b>                | STRICTLY FOR FURTHER SCIENTIFIC RESEARCH USE ONLY (RUO). MUST NOT TO BE USED IN DIAGNOSTIC OR THERAPEUTIC APPLICATIONS.                                          |

### TARGET INFORMATION

|                     |                                           |
|---------------------|-------------------------------------------|
| <b>Sample Types</b> | serum, plasma or other biological fluids. |
| <b>Gene Symbol</b>  |                                           |
| <b>Uniprot ID</b>   |                                           |

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
