

## Anti-COL4A6 antibody (Internal) (STJ72006) STJ72006

## **GENERAL INFORMATION**

Description Applications Pep-ELISA Host/Source Goat Reactivity Human

Product Type Primary antibodies Short Goat polyclonal antibody anti-COL4A6 (Internal) is suitable for use in ELISA research applications.

## **PRODUCT PROPERTIES**

Clonality Polyclonal Clone ID Concentration 0.5 mg/mL

Conjugation Unconjugated Purification Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. Dilution Range IF-Strong expression of the protein seen in the endoplasmic reticulum of HeLa and in the endoplasmic reticulum and membranes of U2OS cells. 10µg/ml ELISA-antibody detection limit dilution 1:32000. Formulation 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Isotype IgG Storage Store at-20 on receipt and minimise freeze-thaw cycles. Instruction

## **TARGET INFORMATION**

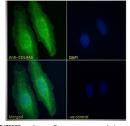

Gene ID 1288

Sequence

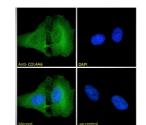

Gene Symbol COL4A6 Immunogen Immunogen Internal

Uniprot ID CO4A6\_HUMAN

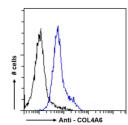

Region This antibody is expected to recognize reported isoforms NP\_001838.2 (iso A) , ; NP\_378667.1 (iso B) , NP\_001274687.1 (iso 3) , Specificity NP\_001274688.1 (iso 4) and NP\_001274689.1 (iso 5). PSPEFETETLHNKES Immunogen

nunofluorescence analysis fixed HeLa cells, permeabilized w Primary incubation 1hr (10ug/ xa Fluor 488 secondary antibo B secondary reticulum stai

Inmunofluorescence analysis of hyde fixed U2OS cells, permeabilized with ton. Primary incubation 1hr (10ug/mi) Alexa Fluor 488 secondary antibody showing endoplasmic reticulum and taining. The nuclear stain is DAPI (blue), nrfoil. Unimmunized goat IgG (10ug/m) Tri

with 0.5% HeL: Triton per (10
