

Anti-GANAB antibody (220-300 Internal) (STJ93283)

STJ93283

GENERAL INFORMATION

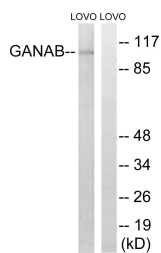

| | |
|--------------------------|--|
| Product Type | Primary antibodies |
| Short Description | Rabbit polyclonal antibody anti-Neutral Alpha-Glucosidase Ab (220-300 Internal) is suitable for use in Western Blot, Immunohistochemistry, Immunofluorescence and ELISA research applications. |
| Applications | WB, IHC-P, IF-P, ELISA |
| Host/Source | Rabbit |
| Reactivity | Human, Mouse |

PRODUCT PROPERTIES

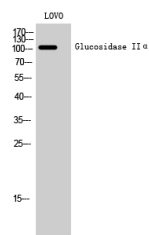

| | |
|----------------------------|--|
| Clonality | Polyclonal |
| Clone ID | |
| Concentration | 1 mg/mL |
| Conjugation | Unconjugated |
| Purification | The antibody was affinity-purified from rabbit anti-serum by affinity-chromatography. |
| Dilution Range | WB 1:500-1:2000 IHC 1:100-1:300 ELISA 1:5000 |
| Formulation | PBS, 50% Glycerol, 0.5% BSA and 0.02% Sodium Azide. |
| Isotype | IgG |
| Storage Instruction | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles. |

TARGET INFORMATION

| | |
|---------------------------|--|
| Gene ID | 23193 |
| Gene Symbol | GANAB |
| Uniprot ID | GANAB_HUMAN |
| Immunogen | The antiserum was produced against synthesized peptide derived from human GANAB at amino acid range 242-291 |
| Immunogen Region | 220-300 Internal |
| Specificity | GANAB polyclonal antibody (Neutral Alpha-Glucosidase Ab) binds to endogenous Neutral Alpha-Glucosidase Ab at the amino acid region 220-300 Internal. |
| Immunogen Sequence | |

Western blot analysis of lysates from LOVO cells, using GANAB Antibody. The lane on the right is blocked with the synthesized peptide.

Western blot analysis of LOVO cells using Glucosidase II Alpha Polyclonal Antibody

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
