Immunogen	The antiserum was produced against synthesized peptide derived from human PRPF19 at amino acid range 171-220
Immunogen Region	140-220 Internal
Specificity	PRPF19 polyclonal antibody (Pre-Mrna-Processing Factor 19) binds to endogenous Pre-Mrna-Processing Factor 19 at the amino acid region 140-220 Internal.
Immunogen Sequence	

Immunohistochemical analysis of paraffin-embedded Human brain. Antibody was diluted at 1:100 (4°C overnight). High-pressure and temperature Tris-EDTA, pH8.0 was used for antigen retrieval. Negative control (right) obtained from antibody was pre-absorbed by immunogen peptide.

Western blot analysis of lysates from COLO and Jurkat cells, using PRPF19 Antibody. The lane on the right is blocked with the synthesized peptide.
