

## Anti-IgMk antibody [MM-30] {FITC} (STJA0002323)

STJA0002323

## **GENERAL INFORMATION**

Product Type Primary antibodies

Short Description Mouse monoclonal antibody anti-IgM, k is suitable for use in Flow Cytometry research applications.

Applications FC Host/Source Mouse Reactivity

## **PRODUCT PROPERTIES**

Clonality Monoclonal
Clone ID MM-30

Concentration 0.5 mg/mL
Conjugation Purification
Pultition Popus

Dilution Range
Formulation PBS with 0.05% Proclin300, 1% BSA

Isotype IgMk

Storage Instruction Recommend storing between 2-8°C and protecting from prolonged exposure to light. Do not freeze this product.
