

Anti-IgMk antibody [MM-30] {PE/Cyanine5} (STJA0002327)

GENERAL INFORMATION

Product Type Primary antibodies

Short Description Mouse monoclonal antibody anti-IgM, k is suitable for use in Flow Cytometry research applications.

Applications FC Host/Source Mouse Reactivity

PRODUCT PROPERTIES

Clonality Monoclonal Clone ID MM-30 Concentration 0.2 mg/mL
Conjugation PE/Cyanine5 Purification

Dilution Range
Formulation PBS with 0.05% Proclin300, 1% BSA

Isotype IgMk

Storage Instruction Recommend storing between 2-8°C and protecting from prolonged exposure to light. Do not freeze this product.

TARGET INFORMATION

Gene ID Gene Symbol Uniprot ID Immunogen Immunogen Region Specificity Immunogen Sequence
