

Anti-Hev b1 antibody [1-5] (STJA0002868)

STJA0002868

GENERAL INFORMATION

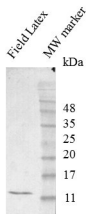

Product Type	Primary antibodies
Short Description	Mouse monoclonal antibody anti-Rubber elongation factor is suitable for use in ELISA and Western Blot research applications.
Applications	ELISA, WB
Host/Source	Mouse
Reactivity	HEVB1

PRODUCT PROPERTIES

Clonality	Monoclonal
Clone ID	1-5
Concentration	
Conjugation	Unconjugated
Purification	Protein G purification
Dilution Range	ELISA 132 000. Reacts as binding antibody in capture ELISA with Hev b1 detection monoclonal antibody A3-700-100. WB 12000 to 14000 Monoclonal antibody working titer has to be established practically for each particular antigen and assay format
Formulation	PBS, 0.1% sodium azide
Isotype	IgG1
Storage Instruction	Store at -20 to -70 °C upon receipt. Divide antibody into aliquots prior usage. Avoid multiple freeze-thaw cycles as product degradation may result

TARGET INFORMATION

Gene ID	
Gene Symbol	
Uniprot ID	
Immunogen Region	Hev b1-MBP fusion protein expressed and purified from E. coli. Hev b1
Specificity	Recombinant and native Hev b1
Immunogen Sequence	

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
