

## Guinea Pig BDNF (pig Brain Derived Neurotrophic Factor) Sandwich ELISA Kit (STJE0007459)

STJE0007459

### GENERAL INFORMATION

|                          |                                                                                                                                                                                                 |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Type</b>      | Kits                                                                                                                                                                                            |
| <b>Short Description</b> | This BDNF Sandwich ELISA Kit is an in-vitro enzyme-linked immunosorbent assay for the measurement of samples in guinea pig cell culture supernatant, serum and plasma (EDTA, citrate, heparin). |
| <b>Applications</b>      | ELISA                                                                                                                                                                                           |
| <b>Reactivity</b>        | Guinea Pig                                                                                                                                                                                      |

### PRODUCT PROPERTIES

|                            |                                                                                                                                                                  |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Detection</b>           | 0.156-10ng/mL                                                                                                                                                    |
| <b>Sensitivity</b>         | 0.059ng/mL                                                                                                                                                       |
| <b>Detection Limit</b>     | 0.156-10ng/mL                                                                                                                                                    |
| <b>Assay Time</b>          | 4.5 hrs                                                                                                                                                          |
| <b>Storage Instruction</b> | Store the unopened kit in the fridge at 2-8°C for up to 6 months. Once opened store individual kit contents according to components table provided with the kit. |
| <b>Note</b>                | FOR RESEARCH USE ONLY (RUO).                                                                                                                                     |

### TARGET INFORMATION

|                     |                                                                                                      |
|---------------------|------------------------------------------------------------------------------------------------------|
| <b>Sample Types</b> | serum, plasma, tissue homogenates, cell lysates, cell culture supernates or other biological fluids. |
| <b>Gene Symbol</b>  |                                                                                                      |
| <b>Uniprot ID</b>   |                                                                                                      |

This product is suitable for in-vitro studies under the RESEARCH USE ONLY [RUO] licence. This product must not be used as for diagnostic or other medical purposes.
