

Hemagglutinin Influenza A-Vietnam 1203-2004-H5N1 protein (Recombinant) (STJP000622)

GENERAL INFORMATION

Product Type Proteins

Short Recombinant-Hemagglutinin Influenza A-Vietnam 1203-2004-H5N1-protein was developed from insect cells. For use in research

Description applications. Host/Source Insect cells

PRODUCT PROPERTIES

Concentration

Formulation Lyophilized from PBS pH7.4, 5% trehalose, 5% mannitol

Purification

Dilution >90%, as determined by SDS-PAGE and HPLC

Range

Storage The lyophilized protein is stable for at least 2 years from date of receipt at -20°C. Upon reconstitution, this product can be stored in

 $\textbf{Instruction} \quad \text{working aliquots at 2-8°C for one month, or at -20°C for six months, with a carrier protein without detectable loss}$

TARGET INFORMATION

Gene ID Gene Symbol Uniprot ID Immunogen Sequence
