

Rabbit Anti-Rabbit IgG (H&L) antibody {Alexa Fluor 568} (STJS000824)

STJS000824

GENERAL INFORMATION

| | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Product Type | Secondary antibodies |
| Short Description | Alexa Fluor 568-conjugated rabbit polyclonal anti-Rabbit IgG H&L secondary antibody. For use in most research applications. |
| Applications | |
| Host/Source | Rabbit |
| Reactivity | Rabbit |

PRODUCT PROPERTIES

| | |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Clonality | Polyclonal |
| Clone ID | |
| Concentration | 2 mg/mL |
| Conjugation | Alexa Fluor 568 |
| Purification | Affinity purified |
| Dilution Range | 1-10 μ g/mL of the IgG conjugate for most applications (appropriate dilutions of the conjugate should be determined empirically). |
| Formulation | Pink solution in pH~7.4 PBS containing 50% glycerol, 2 mg/ml bovine serum albumin (IgG-free and protease-free) and 0.05% sodium azide. |
| Isotype | IgG |
| Storage | Store at 4°C for several months. Protect from light. For longer storage, divide the conjugate into small aliquots and freeze at -20°C. |
| Instruction | Avoid repeated freezing and thawing. |

TARGET INFORMATION

| | |
|---------------------------|-----|
| Gene ID | |
| Gene Symbol | |
| Uniprot ID | |
| Immunogen | H&L |
| Immunogen Region | H&L |
| Specificity | |
| Immunogen Sequence | |
