

## Anti-FoxO antibody (50-100 aa) (STJ13101109)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | IHC/WB             |
| Host / Source | Rabbit             |
| Reactivity    | Hydra              |

### PRODUCT PROPERTIES

|                     |                                                                                                                                                                                                                                                   |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clonality           | Polyclonal                                                                                                                                                                                                                                        |
| Conjugation         | Unconjugated                                                                                                                                                                                                                                      |
| Purification        | IgG purified                                                                                                                                                                                                                                      |
| Dilution Range      | IHC, WB (confirmed by recombinant protein). A dilution of 1:300 to 1:2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.                                                        |
| Formulation         | Lyophilised                                                                                                                                                                                                                                       |
| Isotype             | IgG                                                                                                                                                                                                                                               |
| Storage Instruction | Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, Glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles. |

### TARGET INFORMATION

|                  |                    |
|------------------|--------------------|
| Immunogen Region | 50-100 aa          |
| Specificity      | Specific for FoxO. |

### ADDITIONAL INFORMATION

|      |                                                                                                                         |
