

## Anti-PTH antibody (20-115) (STJ28409)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | WB/ELISA           |
| Host / Source | Rabbit             |
| Reactivity    | Human/Mouse/Rat    |

### PRODUCT PROPERTIES

|                     |                                                                                                                                                        |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clonality           | Polyclonal                                                                                                                                             |
| Concentration       | Lot specific                                                                                                                                           |
| Conjugation         | Unconjugated                                                                                                                                           |
| Purification        | Affinity purification                                                                                                                                  |
| Dilution Range      | WB:1:500-1:2000<br>ELISA:Recommended starting concentration is 1 Mu g/mL. Please optimize the concentration based on your specific assay requirements. |
| Formulation         | PBS with 0.02% Sodium Azide, 50% Glycerol, pH 7.3.                                                                                                     |
| Isotype             | IgG                                                                                                                                                    |
| Molecular Weight    | Protein Mw: 13kDa<br>Observed Mw: 14kDa                                                                                                                |
| Storage Instruction | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles.                                                         |

### TARGET INFORMATION

|                    |                                                                                                                                                               |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|

| UniProt ID         | <a href="#">PTHY_HUMAN</a>                                                                                                                                    |
| Immunogen Region   | 20-115                                                                                                                                                        |
| Immunogen Sequence | LTKSDGKSVKKRSVSEIQLM HNLGKHLNSMERVEWLRKKL QDVHNFVALGAPLAPRDAGS<br>QRPRKKEDNVLVESHEKSLG EADKADVNVLTKAKSQ                                                       |
| Specificity        | Recombinant fusion protein containing a sequence corresponding to amino acids 20-115 of human Parathyroid Hormone (Parathyroid Hormone (PTH) ) (NP_000306.1). |

### ADDITIONAL INFORMATION

Note STRICTLY FOR FURTHER SCIENTIFIC RESEARCH USE ONLY (RUO). MUST NOT TO BE USED IN DIAGNOSTIC OR THERAPEUTIC APPLICATIONS.

Western blot analysis of extracts of various cell lines, using Parathyroid Hormone (Parathyroid Hormone (PTH) ) antibody (STJ28409) at 1:1000 dilution. Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (STJS000856) at 1:10000 dilution. Lysates/proteins: 25 Mu g per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Enhanced Kit. Exposure time: 60s.
