

## Anti-proANP antibody (100-150) {Biotin} (STJ502096)

### GENERAL INFORMATION

|               |                           |
|---------------|---------------------------|
| Product Type  | Primary antibodies        |
| Applications  | CM/ELISA/ICC/IF/IHC/IP/WB |
| Host / Source | Rabbit                    |
| Reactivity    | Human/Monkey/Mouse/Rat    |

### PRODUCT PROPERTIES

|                     |                                                                                                                                                                      |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Clonality           | Polyclonal                                                                                                                                                           |
| Concentration       | 0.60 µg/µl                                                                                                                                                           |
| Conjugation         | Biotin                                                                                                                                                               |
| Purification        | Affinity Purified                                                                                                                                                    |
| Dilution Range      | WB: 1:500<br>ELISA: 1:10, 000<br>IP: 1:200<br>IHC: 1:200<br>ICC: 1:200<br>IF: 1:200                                                                                  |
| Formulation         | Contains Tris, HCl/Glycine buffer pH 7.4-7.8, 30% Glycerol and 0.5% BSA, along with cryo-protective agents, Hepes, and long-term preservatives (0.02% Sodium Azide). |
| Isotype             | IgG                                                                                                                                                                  |
| Storage Instruction | Store at -20°C for long term storage. Avoid freeze-thaw cycles.                                                                                                      |

### TARGET INFORMATION

|                  |         |
|------------------|---------|
| Immunogen Region | 100-150 |
|------------------|---------|

### ADDITIONAL INFORMATION

|      |                                                                                                                         |
