

## Anti-SEMA4D antibody (C-Term) [M188] (STJA0005575)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | WB/ICC             |
| Host / Source | Mouse              |
| Reactivity    | Human/Mouse/Rat    |

### PRODUCT PROPERTIES

|                     |                                                                                                |
|---------------------|------------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                                     |
| Conjugation         | Unconjugated                                                                                   |
| Purification        | Antigen Affinity Purified                                                                      |
| Dilution Range      | WB 1:1000<br>ICC 1:100                                                                         |
| Formulation         | PBS + 1 mg/ml BSA, 0.05% NaN <sub>3</sub> and 50% glycerol                                     |
| Isotype             | IgG1                                                                                           |
| Storage Instruction | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles. |

### TARGET INFORMATION

|                  |                                                                                     |
|------------------|-------------------------------------------------------------------------------------|
| Immunogen Region | C-Term                                                                              |
| Specificity      | This antibody detects a 150 kDa* band on SDS-PAGE immunoblots of adult mouse brain. |

### ADDITIONAL INFORMATION

|      |                                                                                                                         |
