

## Anti-CD99 antibody [H1156] {PE/EF594} (STJA0016612)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | FC                 |
| Host / Source | Mouse              |
| Reactivity    | Human              |

### PRODUCT PROPERTIES

|                     |                                                                                                  |
|---------------------|--------------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                                       |
| Conjugation         | PE/EF594                                                                                         |
| Purification        | Affinity purified                                                                                |
| Formulation         | Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant.      |
| Isotype             | IgG2ak                                                                                           |
| Storage Instruction | Store between 2-8°C and protecting from prolonged exposure to light. Do not freeze this product. |

### TARGET INFORMATION

|             |                            |
|-------------|----------------------------|
| Gene ID     | <a href="#">4267</a>       |
| Gene Symbol | <a href="#">CD99</a>       |
| UniProt ID  | <a href="#">CD99_HUMAN</a> |

### ADDITIONAL INFORMATION

|      |                                                                                                                   |
