

## Anti-IL8/CXCL8 antibody [6G4] (STJA0021852)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | ELISA/FC/IHC/WB    |
| Host / Source | Mouse              |
| Reactivity    | Human              |

### PRODUCT PROPERTIES

|                     |                                                                                                   |
|---------------------|---------------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                                        |
| Concentration       | 1 mg/mL                                                                                           |
| Conjugation         | Unconjugated                                                                                      |
| Purification        | Protein A/G purified from cell culture supernatant                                                |
| Formulation         | 0.01M PBS, pH 7.4.                                                                                |
| Isotype             | IgG1                                                                                              |
| Storage Instruction | Suitable for storage at +4°C between 1-2 weeks For longer term store at -20°C for up to 12 months |

### TARGET INFORMATION

|             |                           |
|-------------|---------------------------|
| Gene ID     | <a href="#">3576</a>      |
| Gene Symbol | <a href="#">CXCL8</a>     |
| UniProt ID  | <a href="#">IL8_HUMAN</a> |

### ADDITIONAL INFORMATION

|      |                                                                                                                    |
