

## Anti-DOCK2 antibody [ZN142] (STJA0033316)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | IHC-P              |
| Host / Source | Mouse              |
| Reactivity    | Human              |

### PRODUCT PROPERTIES

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                               |
| Concentration       | 0.5-1.0 mg/mL                                                                            |
| Conjugation         | Unconjugated                                                                             |
| Purification        | Affinity Chromatography                                                                  |
| Dilution Range      | IHC 1:50-1:100                                                                           |
| Formulation         | PBS (PH 7.3) containing 1% BSA, 50% glycerol and 0.02% sodium azide.                     |
| Isotype             | IgG2a                                                                                    |
| Storage Instruction | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

### TARGET INFORMATION

|             |                             |
|-------------|-----------------------------|
| Gene ID     | <a href="#">1794</a>        |
| Gene Symbol | <a href="#">DOCK2</a>       |
| UniProt ID  | <a href="#">DOCK2_HUMAN</a> |

### ADDITIONAL INFORMATION

Note STRICTLY FOR FURTHER SCIENTIFIC RESEARCH USE ONLY (RUO). MUST NOT TO BE USED IN DIAGNOSTIC OR THERAPEUTIC APPLICATIONS.
