

**Anti-NADPH oxidase 4 antibody [PT0181R] (STJA0039700)****GENERAL INFORMATION**

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | WB/IF/ELISA        |
| Host / Source | Rabbit             |
| Reactivity    | Human/Mouse/Rat    |

**PRODUCT PROPERTIES**

|                     |                                                                                                |
|---------------------|------------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                                     |
| Conjugation         | Unconjugated                                                                                   |
| Purification        | Protein A                                                                                      |
| Dilution Range      | WB 1:1000-5000<br>IF 1:200-1000<br>ELISA 1:5000-20000                                          |
| Formulation         | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                 |
| Isotype             | IgGk                                                                                           |
| Molecular Weight    | Calculated: 67kD<br>Observed: 67kD                                                             |
| Storage Instruction | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles. |

**TARGET INFORMATION**

|             |            |
|-------------|------------|
| Specificity | Endogenous |
|-------------|------------|

**ADDITIONAL INFORMATION**

|      |                                                                                                                         |
