

## Anti-RIP antibody [PT0147R] (STJA0039721)

### GENERAL INFORMATION

|               |                    |
|---------------|--------------------|
| Product Type  | Primary antibodies |
| Applications  | WB/IHC/IF/ELISA    |
| Host / Source | Rabbit             |
| Reactivity    | Human              |

### PRODUCT PROPERTIES

|                     |                                                                                                |
|---------------------|------------------------------------------------------------------------------------------------|
| Clonality           | Monoclonal                                                                                     |
| Conjugation         | Unconjugated                                                                                   |
| Purification        | Protein A                                                                                      |
| Dilution Range      | IHC 1:200-1000<br>WB 1:1000-5000<br>IF 1:200-1000<br>ELISA 1:5000-20000                        |
| Formulation         | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                 |
| Isotype             | IgGk                                                                                           |
| Molecular Weight    | Calculated: 76kD<br>Observed: 76kD                                                             |
| Storage Instruction | Store at -20°C for up to 1 year from the date of receipt, and avoid repeat freeze-thaw cycles. |

### TARGET INFORMATION

|             |                           |
|-------------|---------------------------|
| Gene ID     | <a href="#">84268</a>     |
| Gene Symbol | <a href="#">RPAIN</a>     |
| UniProt ID  | <a href="#">RIP_HUMAN</a> |
| Specificity | Endogenous                |

### ADDITIONAL INFORMATION

|      |                                                                                                                         |
