

## Human CTSS (Cathepsin S) Antibody Pair (STJAP00155)

### GENERAL INFORMATION

|               |                |
|---------------|----------------|
| Product Type  | Antibody Pairs |
| Applications  | ELISA          |
| Host / Source | Goat/Goat      |
| Reactivity    | Human          |

### PRODUCT PROPERTIES

|                     |                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Clonality           | Polyclonal/Polyclonal                                                                                                                    |
| Concentration       | 0.5 mg/mL                                                                                                                                |
| Conjugation         | Unconjugated/Biotin                                                                                                                      |
| Purification        | Capture Purification: Antigen Affinity.<br>Detection Purification: Antigen Affinity.                                                     |
| Formulation         | Capture Buffer: PBS with 0.04% Proclin 300, 50% glycerol, pH 7.4.<br>Detection Buffer: PBS with 0.04% Proclin 300, 50% glycerol, pH 7.4. |
| Storage Instruction | Store at -20°C for the long term, and avoid freeze-thaw cycles.                                                                          |

### TARGET INFORMATION

|             |                            |
|-------------|----------------------------|
| Gene ID     | <a href="#">1520</a>       |
| Gene Symbol | <a href="#">CTSS</a>       |
| UniProt ID  | <a href="#">CATS_HUMAN</a> |

### ADDITIONAL INFORMATION

|      |                                                                                                                   |
