

## Human FGFBP1 protein (Recombinant) (STJP000608)

### GENERAL INFORMATION

|               |          |
|---------------|----------|
| Product Type  | Proteins |
| Host / Source | HEK293   |

### PRODUCT PROPERTIES

|                     |                                                                                                                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulation         | Lyophilised from 0.2 M filtered PBS solution, pH7.2, 5% Trehalose.                                                                                                                                            |
| Molecular Weight    | Recombinant Human FGF binding protein 1 (FGF-BP1) is a protein consisting of 217 amino acid residue subunits, due to glycosylation migrates as an approximately as 35kDa band protein on reduced SDS-PAGE. NA |
| Storage Instruction | Can be stored in working aliquots at 2°C-8°C for one month, or at -20°C to -70°C for 1 year. Avoid repeated freeze/thaw cycles. NA                                                                            |

### TARGET INFORMATION

|                  |                             |
|------------------|-----------------------------|
| Gene ID          | <a href="#">9982</a>        |
| Gene Symbol      | <a href="#">FGFBP1</a>      |
| UniProt ID       | <a href="#">FGFP1_HUMAN</a> |
| Immunogen Region | LYS24-CYS234                |

### ADDITIONAL INFORMATION

|      |                                                                                                              |
