

Material Safety Data Sheet

SECTION 1. Identification

1.1 Product identifier

STJ11105818

1.2. Relevant identified uses of the substance or mixture and uses advised against

This product is composed of antibody in aqueous buffer, intended for the purposes of scientific research use only. It is not intended for diagnostic or other medical uses.

This product contains no hazardous components, or the concentration of all chemical constituents is below the regulatory threshold limits described by European Directive 91/155/EEC, 93/112/EC and (EC) 1272/2008 (CLP).

1.3. Details of the supplier of the safety data sheet

St John's Laboratory Ltd
Knowledge Dock Business Centre
University Way
London
E16 2RD, UK
Tel: 0208 223 3081

1.4. Emergency telephone number

UK - Call 111 if you urgently need medical assistance or advice if in a non-life-threatening situation. 111 is available 24 hours a day, 365 days a year.
USA – Emergency services – Dial 911
EU – Emergency services – Dial 112
ROW – Please seek assistance from local country services.

SECTION 2. Hazards Identification

2.1 Classification of substance or mixture

Product definition:

Mixture

Classification according to Reg (EC) No. 1272/2008

Not a hazardous substance or mixture according to directives 67/548/EEC or 1999/45/EC. OSHA Hazard Communication Standard 29CFR1910:1200 classifies this product as non-hazardous.

2.2. Label elements

The product is not required to be labelled according to EC directives. Precautionary statements (EU) 28 1272/2008, wear appropriate PPE, gloves and protective clothing.

2.3. Other hazards

Physical/chemical: Not applicable.

Human health: Not applicable.

SECTION 3. Composition/information on ingredients

3.1 Substances

Not applicable.

3.2 Mixtures

All components are considered non-hazardous.

Name	EC#	CAS#	Amount
Proclin	911-418-6	55965-84-9	≤0.1%

SECTION 4. First Aid Measures

4.1. Description of first aid measures

Eye Exposure In case of contact with eyes, immediately flush eyes with water for at least 15 minutes. Seek medical attention.

Ingestion If swallowed and person is conscious, rinse mouth with water. Seek medical attention.

Inhalation If inhaled, move to fresh air. If breathing difficulties occur, seek medical attention.

Skin Exposure In case of contact, wash skin with soap and water.

4.2. Most important symptoms and effects, both acute and delayed
Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed
Not applicable.

SECTION 5. Fire Fighting Measures

5.1. Extinguishing media Water spray, dry chemical, foam or carbon dioxide.

5.2. Special hazards arising from the substance or mixture No data available.

5.3. Advice for firefighters Wear protective clothing and self-contained breathing apparatus to prevent contact with skin and eyes.

5.4 Further information No data available.

SECTION 6. Accidental Release Measures

6.1. Personal precautions, protective equipment and emergency procedures Maintain adequate ventilation, eye wash and quick drench facilities in work area. Wear a lab coat, chemical resistant gloves and chemical safety.

6.2. Environmental precautions Avoid dispersal of spilt material and runoff contact with soil. Prevent product from entering drains.

6.3. Methods and material for containment and cleaning up	Absorb liquid with an absorbent material. Transfer contaminated absorbent to a chemical waste container for disposal.
6.4. Reference to other sections	See Section 13.

SECTION 7. Handling and Storage

7.1. Precautions for safe handling	Avoid inhalation and contact with eyes and skin. Avoid prolonged or repeated exposure.
7.2. Conditions for safe storage, including any incompatibilities	Store according to instructions on the product label and data sheet.
7.3. Specific end use(s)	No other specific uses are intended. These products are for research purposes only and must not be used in diagnostic or other medical purposes.

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Name	Occupational exposure limits (EH40/2005 WEL, UK)
ProClin	-

8.2. Exposure controls

Engineering Controls	Practice good safety and industrial hygiene, ensuring PPE is worn prior to handling. Wash hands after handling.
Eye/face protection	Avoid contact with the eyes, and wear safety glasses or goggles with side shields conforming to EN 166 (EU).
Skin protection - hands	Avoid contact with skin and mucous membranes. Avoid prolonged or repeated contact with skin, and wear gloves which conform to EN374 (EU). Gloves should be of non-reactive material such as latex, butyl rubber, polyvinyl chloride, etc. The use of gloves should take into account other chemicals which are being handled, as well as physical properties, such as puncture protection, dexterity and thermal protection.
Skin protection - other	Lab coat should be worn to protect other bodily areas, as well as footwear which fully covers the feet.
Respiratory protection	Under normal conditions of use a respirator is not required. Should a respirator be required the user should be properly trained to ensure proper fitting.
Thermal hazards	Not applicable.
Environmental exposure controls	Comply with local environmental regulations. Where necessary this may include the use of cases, fume scrubbers, filters or engineering modifications to equipment to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical State	Liquid at room temperature.
Colour	Colourless.

Odour	Odourless.
Melting/Freezing Point	Data not available.
Initial boiling point & boiling range	Data not available.
Flammability	Data not available.
Lower and upper explosion limit	Data not available.
Flash point	Data not available.
Auto-ignition temperature	Data not available.
Decomposition temperature	Data not available.
pH	7.4
Kinematic viscosity	Data not available.
Solubility	Soluble
Partition coefficient (n-octanol/water)	Data not available.
Vapour pressure	Data not available.
Relative density	Data not available.
Relative vapour density	Data not available.
Particle characteristics	Data not available.

9.2. Other information

Not available

SECTION 10. Stability and reactivity

10.1. Reactivity

No information available.

10.2. Chemical stability

Product is stable under normal operating conditions, and when used according to the data sheet.

10.3. Possibility of hazardous reactions

No known reactions when used as described.

10.4. Conditions to avoid

Extreme temperatures and direct sunlight.

10.5. Incompatible materials

No information available.

10.6. Hazardous decomposition products

None under normal use conditions.

SECTION 11. Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

This product is for experimental/research uses only. It has not been completely analysed, and all of the hazards may not be known.

Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
ProClin	862 mg/kg (Rat)	2,800 mg/kg (Rabbit)	4 h - 16.67 mg/l – vapor (Calculation method)
Skin corrosion/irritation	No data available.		
Serious eye damage/eye irritation	No data available.		
Respiratory or skin sensitisation	No data available.		
Germ cell mutagenicity	No data available.		

Carcinogenicity	IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probably, possible or a confirmed human carcinogen by IARC.
Reproductive toxicity	No data available.
STOT – single exposure	No data available.
STOT – repeated exposure	No data available.
Aspiration hazard	No data available.
Additional information	RTECS: Not available. This product is not subject to OSHA classification.

11.2. Information on other hazards

No data available.

SECTION 12. Ecological information

12.1. Toxicity

The environmental impact of this product has not been fully investigated.

Name	Toxicity to algae	Toxicity to fish	Toxicity to daphnia and other aquatic invertebrates
ProClin	-	flow-through test LC50 - Oncorhynchus mykiss (rainbow trout) - 0.19 mg/l - 96 h (US-EPA) Chronic toxicity - semi-static test NOEC - Oncorhynchus mykiss (rainbow trout) - 0.098 mg/l - 35 d (OECD Test Guideline 215)	flow-through test LC50 - Daphnia magna (Water flea) - 0.18 mg/l - 48 h (US-EPA) Chronic toxicity - flow-through test NOEC - Daphnia magna (Water flea) - 0.1 mg/l - 21 d (US-EPA)

12.2. Persistence and degradability

No data available.

12.3. Bioaccumulative potential

No data available.

12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment

No data available.

12.6. Endocrine disrupting properties

No data available.

12.7. Other adverse effects

No data available.

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Product

Dispose of in accordance with local laws and national/federal regulations. Smaller quantities may be disposed of with solid waste.

Packaging

Contaminated packaging should be disposed of in the same way as unused product.

SECTION 14. Transport information

14.1. UN number or ID number, groups and classes

Chemical Inventory Status

DOT	Not regulated
ADR/RID	Considered non-hazardous for transport.
IMDG	Considered non-hazardous for transport.
IATA	Considered non-hazardous for transport.
IATA-DGR	Considered non-hazardous for transport.

14.6. Special precautions for user

Transport within user's premises: always transport within closed containers which are upright and secure. Users should be trained in the event of an accident of spillage.

14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

SECTION 15. Regulatory information

This safety data sheet conforms to regulation (EC) No. 1907/2006 (REACH), Annex II.

15.1. Safety, health and environmental regulations/legislation specific for the substance or Mixture

No data available.

15.2. Chemical safety assessment

No chemical safety assessment was carried out for this product.

SECTION 16. Other information

The products referenced in this sheet are sold with intention for research use only by personnel familiar with chemicals and trained professionals with good laboratory practices in science research. No other use is intended, and any other use may involve substantive hazards.

All information is believed to be correct at the time of writing, does not purport to be all inclusive and shall be used only as guide for experienced personnel. Users should carry out their own investigation to determine the suitability of the information for their purposes. In no way shall we be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising from using the above information.
