#### SECTION: 4 FIRST-AID MEASURES

#### 4.1 General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.

#### 4.2 If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

#### 4.3 In case of skin contact

Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Consult a physician.

# 4.4 In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes • Avoid inhalation. and consult a physician.

#### 4.5 If swallowed

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

#### SECTION 5 FIRE FIGHTING MEASURES

# 5.1 Suitable extinguishing media

Water spray, alcohol-resistant foam, dry chemical, carbon dioxide or appropriate foam. For small fires, use media such 7.2 Storage as "alcohol" foam, dry chemical or carbon dioxide. For large fires, apply water from as far as possible. Use large quantities of water applied as a mist or spray. Solid streams • Keep away from heat, sparks and flame. of water may be ineffective. Cool affected containers with flooding quantities of water.

# 5.2 Special precautions for fire-fighters

Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

# 5.3 Special hazards arising from the substance or mixture

Carbon oxides, Nitrogen oxides (NOx), Sulphur oxides, Hydrogen chloride gas.

# **SECTION 6 ACCIDENTAL RELEASE MEASURES**

## 6.1 Person-related safety precautions

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

# 6.2 Measures for environmental protection

Prevent further leakage or spillage if safe to do so. Do not let enter drains. Discharge into the environment must be avoided.

# 6.3 Measures for containment and cleaning

Contain spillage, and then collect with non-combustible absorbent material (eg. sand, diatomaceous earth, vermiculite). Place in a container for disposal according to local regulations. Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal. Sweep up and shovel. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.

#### **SECTION 7 HANDLING AND STORAGE**

### 7.1 Handling

- Wear appropriate protective clothing and safety gloves.
- · Avoid contact with eyes, skin and clothing.
- · Mechanical exhaust required.
- Keep away from ignition sources, heat and flame.
- · No smoking at working site.
- Incompatibilities: Strong oxidizing agents, Strong acids. Handling and unloading should be light, to prevent packaging broken, damp and cause losses.
- Working place should be equipped with appropriate varieties and quantities of firefighting equipment and leakage emergency treatment equipment.

- Store in cool place. Keep container tightly closed in a dry and well-ventilated place.
- Keep away from sources of ignition.
- Incompatible: Strong oxidizing agents, Strong acids.
- Storage place should be equipped with appropriate varieties and quantities of firefighting equipment and leakage emergency treatment equipment.

# **SECTION 8 EXPOSURE CONTROL/PPE**

| Name                           | Occupational exposure limits (EH40/2005 WEL, UK) |  |
|--------------------------------|--|--|
| ProClin-300                    | -  |  |
| Sulphuric acid                 | TWA 0.05 mg/m3 Form: Mist                        |  |
| 3,3',5,5' Tetramethylbenzidine | -  |  |

# 8.1 Engineering Controls

Mechanical exhaust required. Safety shower and eye bath.

# Occupational exposure limits in the workplace

TLV-C (mg/m3) No data available TLV=STEL (mg/m3) No data available

#### 8.2 Personal Protective Equipment

Respiratory: Government approved respirator if needed. Eye/face: Chemical safety goggles if needed.

Clothing: Wear appropriate protective clothing.

Hand/skin: Protective gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body protection: Wear suitable protective clothing according to the concentration and amount of

the substance at the workplace.

#### 8.3 Other Protect

No smoking, drinking and eating at working site. Wash thoroughly after handling.

# **SECTION 9 PHYSICAL/CHEMIICAL PROPERTIES**

| Appearance                  | Liquid                        |
|-----------------------------|-------------------------------|
| Smell                       | Odourless                     |

| Melting point/melting rang  | <b>e</b> °C no data available |
| Flash Point                 | °C no data available          |
| Autoignition temperature    | °C no data available          |
| Oxidation                   | No data available             |
| Water solubility            | No data available             |
| Viscosity                   | No data available             |

#### **SECTION 10 STABILITY AND REACTIVITY**

# 10.1 Reactivity

No data available

# 10.2 Chemical stability

Stable under recommended storage conditions

#### 10.3 Possibility of hazardous reactions

No data available

# 10.4 Conditions to avoid

Heat, flames and sparks

# 10.5 Incompatible materials

Strong oxidizing agent, Light sensitive, Alcohols, Organic materials, Heavy metals, Powdered metals, Strong reducing agents, Amines, Mercaptans.

# 10.6 Hazardous decomposition products

Other decomposition products: No data available Hazardous decomposition products formed under fire conditions: Carbon oxides, Nitrogen oxides (NOx), Sulphur oxides, Hydrogen chloride gas.

#### **SECTION 11 TOXICOLOGICAL INFORMATION**

Tetramethyl benzidine

# **SECTION 13 DISPOSAL CONSIDERATION**

#### 13.1 Disposal methods

Dispose of waste in accordance to applicable national, regional, or local regulations. Burn in a chemical incinerator equipped with an afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

# 13.2 Contaminated packaging

Dispose in the same manner as unused product.

## **SECTION 14 TRANSPORT INFORMATION**

RID/ADR: Non-Hazardous for Transport: This substance is considered non-hazardous for transport IATA: Non-Hazardous for Air Transport. IMO: Non-Hazardous for Sea Transport.

# **SECTION 15 REGULATORY INFORMATION**

This material safety data sheet complies with the requirements of Regulation (EC) No. 1272/2008 and its amendments.
